B310

Flexible enjoyment of light and shade

Flexible enjoyment of light and shade

The B310 offers an elegant and versatile solution to enjoy your terrace all year round. This pergola with fabric roof combines a sleek design with exceptional ease of use, fully tailored to your home and outdoor space. You choose the colour and dimensions yourself, so the B310 fits seamlessly with your style.

The innovative fabric roof provides the perfect balance between light and shade. When fully retracted, you enjoy maximum natural light and an open feeling indoors. When the fabric is extended, it provides effective protection against sun, UV rays, and rain, so you can stay outside in complete comfort.

Thanks to the extremely compact system, the fabric roof opens up to an impressive 91%, creating an unparalleled sense of space. In addition, you benefit from extensive personalisation options such as a RAL colour of your choice, terrace heating, built-on screens or sliding walls, and atmospheric LED lighting. This way, you effortlessly create an atmospheric and functional outdoor environment, fully tailored to your wishes.

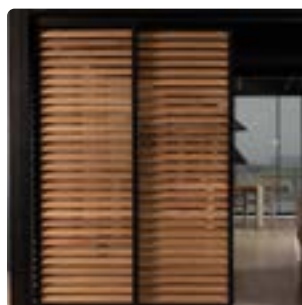

Options

Dimmable LED lighting

Both LED spots in the frame and LED on the gutter are possible on all sides. Plus, they're dimmable.

Sliding walls

With the optional sliding walls, you can easily create extra shelter from wind, rain or prying eyes. Choose full wooden louvres or aluminium louvres in wood look or RAL colour of your choice.

Maximum dimensions

Single roof 7,00 × 4,50 m

Colours

Standard colours of the frame

-  RAL7016 ST
-  RAL7039 ST
-  RAL9005 ST
-  RAL9016 ST

All RAL colours optional

Fabrics

Swela New Light Elegance Perla Full collection available

Terrace heating

Powerful terrace heating (2000 W or 2200 W) for cool evenings. You can combine multiple elements in one module. Available in black, white, or anodised finish (depending on the model).

Socket in post

For extra lighting or to charge your devices — with a splash-proof built-in socket, you have everything you need to enjoy the outdoors from morning to evening.

Surface-mounted screens

Surface-mounted screens are possible on all sides. There's a wide range of colours and transparency options for the screens.

Advantages

- Minimalist design
- No visible screws
- Maximum natural light
- Optimal protection every season
- Plenty of customisation options
