

B129

PERFECT SHADE

B129

PERFECT SHADE

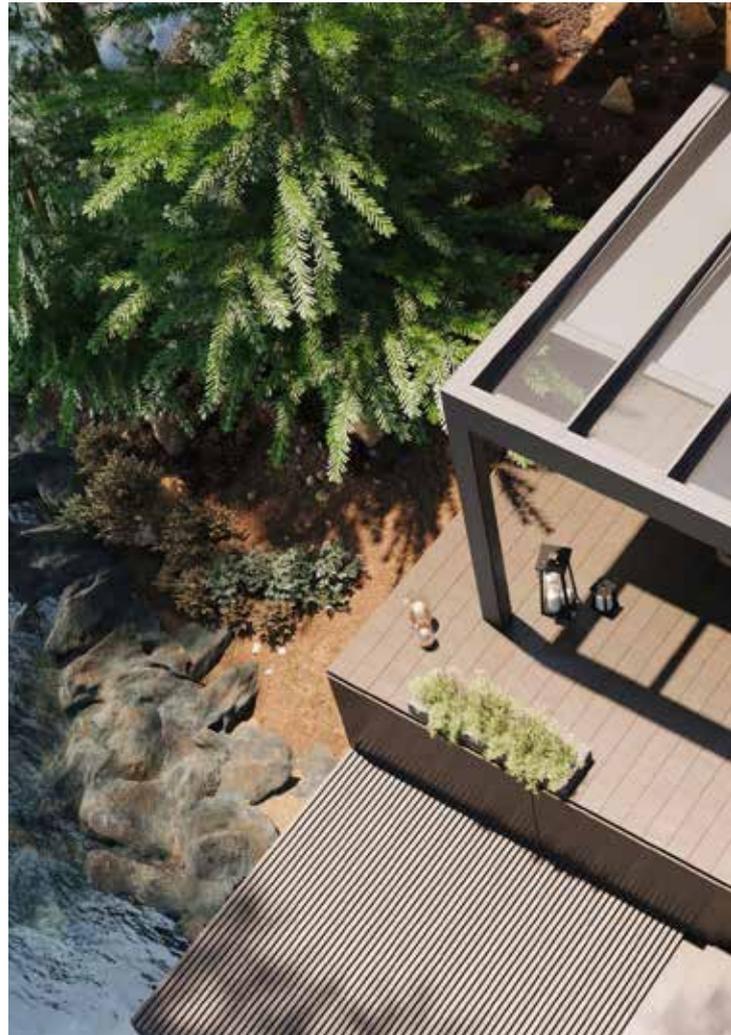

The B129 is an awning that provides optimal sun and heat protection for a veranda or glass patio roof. Choose a fabric from a wide range of options to match the B129 seamlessly with the architecture of your home. Thanks to ZIP technology the fabric will always remain perfectly taut between the guides. This ensures a very wind-resistant awning that does not let in any light between the fabric and the guides. In addition, you can also choose to add an LED strip in the cassette to create a cozy mood in the evening.

SPECIFICATIONS
