

B800

ROBUST ELEGANCE

B800

ROBUST ELEGANCE

The B800 is an aluminum pergola with a fixed glass roof, offering the best of both worlds: an attached outdoor pod while preserving natural light in the house.

The combination of a cubist look and robust structure creates a sleek appearance and the glass panels are discreetly sloped to shed rainwater.

With the B800, you can play with the seasons, so to speak: for example, you can choose overhead sun protection in summer or a patio heater in winter as well as integrated ZIP screens.

STRENGTHS

- ✓ Attached via wall connection profile, or stand-alone on 4 posts
- ✓ Optimal incidence of light
- ✓ Permanent outdoor space under the pergola
- ✓ Design is more modern than ever
- ✓ No visible screws

OPTIONS

Dimmable LED lighting

LED spots are possible in the intermediate beams and the frame on all sides. Moreover, they are dimmable, so you can create the right atmosphere at any time.

Patio heating

Powerful patio heater (2000 W or 2200 W) for chilly evenings. You can combine several elements in one module. Available in black, white or anodised version (depending on model).

DIMENSIONS & DETAILS

Maximum dimensions

7,00 x 4,00 m

Control

Somfy IO control

Remote control

Options

Dimmable LED lighting

Patio heating

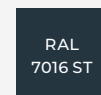

Integrated screens

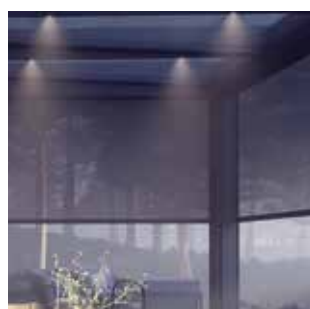

Rain and snow sensor

Colours

All other RAL colours are optional

All data are subject to change

Integrated screens

Integrated screens are possible on all sides. There is a wide range of colours and screen transparency to choose from.

Door pole

An additional door pole is possible, to divide the width of your integrated screens and keep a doorway free.

B129 awning

The B129 is an awning that provides optimal sun and heat protection for a veranda or glass patio roof.
