ELEGANCE & PROTECTION
TAILORED TO YOUR NEEDS

B910

ELEGANCE & PROTECTION TAILORED TO YOUR NEEDS

With the B910, you're not just installing a carport, but adding an elegant extension to your home. The sleek aluminium design, powder-coated in your favourite RAL colour, perfectly matches any architectural style. Available as single or double roof, wall-mounted or freestanding, and fully modular to your preferences – for 1 or 2 vehicles.

The smart finishing – such as set-back posts for easy entry and exit, and concealed drainage through the posts – combines comfort with aesthetics.

Thanks to the 85 mm thick sandwich panels providing extra sound insulation, your vehicle is optimally sheltered from rain and protected against condensation, UV rays, hail, or falling branches.

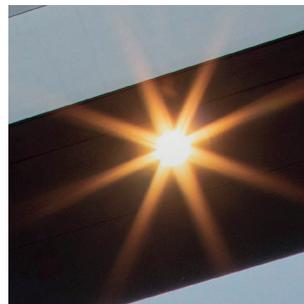

Add even more comfort with clever options like integrated LED lighting, a power socket, sliding walls or surface-mounted screens.

ADVANTAGES

- ✔ Strong and elegant structure
- ✔ Sound-insulating roof panels
- ✔ No condensation on the underside of the roof
- ✔ Optimal vehicle protection
- ✔ Numerous customisation options
- ✔ Set-back posts for easy entry and exit (optional)

OPTIONS

Dimmable LED lighting

Both LED spots in the frame and LED in the gutter are available on all sides. Moreover, they are dimmable.

Power socket in post

A splash-proof socket (IP54) can be integrated into the posts. Ideal for charging an electric bike, for example.

DIMENSIONS & DETAILS

Maximum dimensions

Single roof: 6 m x 3,50 m

Double roof: 6 m x 6 m

Control

Somfy io control for LED

Remote control

Options

Dimmable LED lighting

Power socket in post

Sliding walls

Surface-mounted screens

Colours

Frame:

All other RAL colours optional (frame only)

Top of roof: RAL 7016

Underside of roof: white

All data subject to change

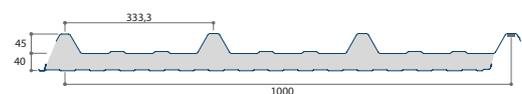

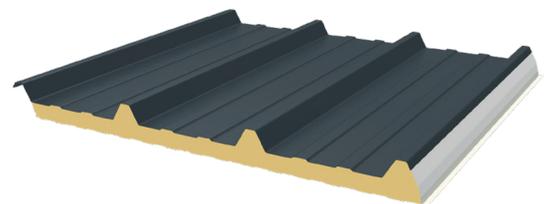

Sliding walls

Optional sliding walls provide extra protection from wind, rain or prying eyes. Choose full wooden slats or aluminium slats in wood-look or a RAL colour of your choice.

Surface-mounted screens

Screens can be added on all sides. A wide range of colours and screen transparencies are available.
