## B910

Elegance and protection, fully tailored to you

## Elegance and protection, fully tailored to you

With the B910, you're not just getting a carport, but an elegant extension of your home. The sleek aluminium design, coated in your favourite RAL colour, fits perfectly with any architectural style. Available as single or double roof, as a lean-to or freestanding, and fully modular to your wishes, for 1 or 2 vehicles.

The thoughtful finish – like recessed posts for easy driving in and out and hidden drainage through the posts – combines comfort with aesthetics.

Available as Flat version, with flat aluminium sheets as roof infill, or Rib version, with corrugated steel sheets, both providing extra sound insulation, your vehicle enjoys optimal shelter from rain and is protected against condensation, UV rays, hail or falling branches.

Add extra comfort with smart options like integrated LED lighting, a power outlet, sliding walls or surface-mounted screens.

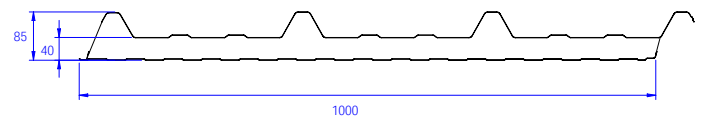

### Advantages

- Minimalist design
- Strong and elegant construction
- Sound-insulating roof panels
- No condensation under the roof
- Vehicle optimally protected
- Plenty of customisation options
- Recessed posts possible for smooth driving in and out (optional)

### Roof infill

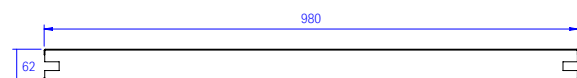

#### Rib

Custom-cut 85 mm insulated panels in steel. Top side in RAL7016, bottom side in RAL9002.

#### Flat

Custom-cut 62 mm insulated panels in aluminium. Top and bottom sides in RAL9010.

#### Maximum dimensions

Single roof - Rib / Flat	6,00 × 3,50 m
Single roof - reinforced beam - Rib	6,00 × 3,50 m
Single roof - reinforced beam - Flat	6,00 × 4,50 m
Double roof - 4 posts - Rib / Flat	6.00 × 5.00 m or 4.76 × 6.00 m
Double roof - 6 posts - Rib / Flat	6,00 × 6,00 m

#### Colours

Standard frame colours	 RAL7016 ST  RAL7039 ST  RAL9005 ST  RAL9016 ST
------------------------	--

All RAL colours optional

#### Options

LED lighting	LED spot in frame LED strip on gutter up/down
Side walls	Surface-mounted screens Sliding walls Fixed panels
Configuration	Doorpost Overhang
Other	Patio heater Socket

## Options

### Dimmable LED lighting

Both LED spots in the frame and LED on the gutter are possible on all sides. Plus, they're dimmable.

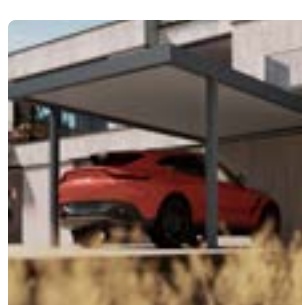

### Power outlet in post

Spray-waterproof outlet according to IP54 possible in the posts. Perfect for, say, charging an electric bike.

### Fixed panels

With the optional fixed panels, you can easily create extra shelter from wind, rain or prying eyes.

### Overhang

The recessed post creates a handy overhang, making it easier and safer to drive in and out. This smart solution gives you extra manoeuvring space and gives the carport an open, sleek look without sacrificing strength.
