B1200 ZIP

FOR LARGE WINDOWS

The B1200 ZIP screen is the ideal sun protection solution for homes with large glass windows or partitions. The screens block the sun's rays before they reach the glass, ensuring that it never gets uncomfortably warm inside. They also reduce glare on your TV or computer screen without diminishing your outside view. In short, these sun protection screens increase your home's comfort and energy efficiency, rendering air conditioning redundant.

- Designed for new builds
- Screen housing and side rails suitable for flush mounting
- Lead rail disappears into screen Housing
- Screen to be co-installed with windows
- Easy access to roller tube and fabric
